

Time is Precious

Find a simpler method of protein detection

Tired of ELISA and Western Blot?
It's Time for Lumit™ Immunoassays

Join our webinar and Q&A session on:

Lumit™ Immunoassays: An Easier, Faster Method for Protein Detection

Tuesday, 8th of June, 2021, 3:30 – 4:15 pm CEST

In this webinar, you will learn how to:

- Use simple, add-mix-read protocols to detect a variety of analytes
- Implement existing Lumit™ assays in your lab or build your own Lumit™ immunoassays
- Analyze data using examples for cytokine detection, signaling pathway analysis and FcRn binding

We are looking forward to seeing you!
Promega Team
